3-MONTH TERM FOR W. DAVEY

County Jail Sentence And Full Restitution Ordered In Granting 5-Year Probation

William LeRoy Davey, 21, indicted by the county grand jury on a charge of grand theft in the amount of \$1230 in gold in connection with highgrading at the Black Oak Mine, at Garden Valley, was ordered to serve three months in the county jail and make full restitution for all loot taken as special conditions of a period of five years on probation, granted Saturday morning by Judge George H. Thompson in Superior Court.

Davey came before the court for receipt of the report of the probation officer and for sentencing following his earlier plea of guilty to the charge.

The report of Probation Officer Charles W. Ball reviewed the defendant's life, mentioned that he had worked part-time at the Black Oak mine while attending school, and revealed that the defendant's first experience in highgrading came in the summer of 1936 when he was employed as host-man at the mine and was approached by another miner to help get highgraded ore out of the mine.

The defendant had told him that after this first experience he became frightened and desisted from further participation in the practice until some time later. The report set the total amount taken by Davey at about \$5,000 and subsequent declaration by attorneys set the amount at exactly \$5,817.50.

The probation officer recommended that probation be denied.

Attorney Stanley Reckers who, with Attorney Archie Mull, had been employed as counsel for the defendant, addressed the court in Davey's behalf, urging upon the court the propriety of probation in the case owing to Davey's

Capital May Go "On Strike"

Investment Banker Tells Of Need For Revision Of Tax Regulations

By ALLEN C. DIBBLE

United Press Staff Correspondent
WASHINGTON, (UP)—A New York investment banker today warned the senate finance committee that a "sit-down strike" by capital is imminent unless tax laws are modified.

Maurice Wertheim told the committee at public hearings on the house-approved tax bill that unwillingness on the part of capital to invest in industry "has been forced on capital by the manner in which our tax laws are drawn."

The witness supported tax revisions suggested by chairman Pat Harrison, D. Miss.

"Capital is forced to go on a sit-down strike if you remove the profit motive," Wertheim said, "and if the strike is not here now, it certainly will be here shortly unless our tax laws are changed."

Art Of Making Cheese By Hand Disappearing

MOUNT HOLLY, Vt., (UP)—A simple legend—"Home of Crowley Cheese—No Dogs Allowed"—modestly tells of this town's chief claim to fame.

For the days of hand cheese making in Vermont is fast passing. Crowley's cheese factory, operated by four generations of the family, is the sole survivor of six factories here.

George Crowley assisted by Prince Robert continues the same policies inaugurated by Winfield Crowley, who built the three-story factory in 1880. As No. 1 cheese taster he has eaten 3276 pounds of the factory's product in his 42 years' experience.

The factory used 936,504 pounds of milk to produce 93,936 pounds of "stirred" cheese last year.

Mission Swallows Are Home On Schedule

SAN JUAN CAPISTRANO, (UP)—For at least the 161st year, according to legend, the famous swallow flock returned to the old mission here on St. Joseph's Day.

The birds come and go on Saints' Day with a clock-work regularity that the villagers believe is a religious miracle. This morning they began whirling in over the ocean, on schedule, shortly before 6:30 a. m.

The swallows will stay until San Juan's Day, next October 23. Where they go is a mystery.

PROBATION REVOKED, MAN GOES TO PRISON

"Can't Permit The Bringing Of Discredit Upon Court," Declares Judge Thompson

"Much as we desire to save young men from going to the penitentiary where such can be done within the law, we can not let them bring discredit upon this court."

With this and other comment upon the unsatisfactory conduct of Walter Neilsen, who had been placed on probation for a period of three years, Judge George H. Thompson found Saturday morning that the terms of probation have been violated and accordingly remanded Neilsen to the county sheriff, to be delivered at San Quentin prison to serve the term prescribed by law.

The sentence, upon a plea of guilty to a charge of appropriating the automobile of another to his own use without the owner's consent, is for an indeterminate term of from one to five years.

The court ordered that a county jail term of 75 days, which Neilsen served as a condition of the terms of probation, may be made to apply on his term at San Quentin prison. A 48-hour stay of commitment was ordered to permit taking of a statutory statement from the prisoner.

Neilsen was arrested for taking the personal car of Highway Patrol Captain E. A. Brewster from the Frey Garage and driving it to Sacramento where it was abandoned. The defendant had gained access to the garage during the night by using a key left at the Ivy Hotel (where Neilsen was employed) for the convenience of garage patrons.

It was also reported in connection with the case that Neilsen had taken some cash belonging to the hotel amounting to some \$40-odd, on which restitution subsequently was made.

In addition to the county jail term, the court in granting probation had admonished Neilsen to abstain from intoxicants, avoid bad company and a constructive citizen.

These things, it was shown by the testimony of Sacramento police officers, he had failed to do, and the court found that the terms of the probation had been violated. Therefore probation was revoked and sentence passed as prescribed by law.

BAND CONCERT AT CLUBHOUSE

Nearly 200 Delegates From 16 Chapters City's Guests For Divisional Meeting

The advance guard of nearly 200 members of the Order of DeMolay representing sixteen chapters of the order in Northern California, arrived in Placerville Saturday noon for their two-day quarterly divisional meeting.

The first convention feature, and one at which the general public will be welcomed, will be the order at 7:30 o'clock tonight at the Shakespeare Clubhouse. A nominal admission will be charged and the proceeds of the concert will be used to defray the expenses of bringing the band to Placerville.

The divisional dance, for members of the order and invited friends, will be held later in the evening at the clubhouse.

Convention headquarters are established at Hotel Raffles and the delegates are being quartered there, at the Ivy House and the Ivy Motel, and in some few instances in private homes.

Arrangements for the entertainment of the delegates have been made by a committee of El Dorado Chapter members including Stanley Barker as general chairman, assisted by Arthur Hackwood, Dick Walters, Bob Rhodes and Harold Duden.

The convention business sessions will open at 8:30 o'clock Sunday morning at the Masonic temple. These will be followed by the Devotional Day services at the Federated Church at 10:45 o'clock and by the farewell luncheon at the Masonic hall at 12:30 o'clock.

In the afternoon, two teams representing chapters in the division, will play a basketball game at the high school gymnasium beginning at 2 o'clock, the winner to qualify for further competition at the state meeting of the order.

A large number of Placerville business establishments today displayed large signs expressing the city's greeting to the visiting delegates, "Welcome De Molays."

He is charged with having sent six letters demanding ransom of \$30,000 for the return of Peter, who disappeared from his home in New Rochelle, N. Y., February 24.

Deer Hunters Ask Ban On Dogs In Forest

ALBUQUERQUE, N. M. (UP)—New Mexico hunters have asked that dogs be banned from the state forests for a 10-day period prior to the opening of the deer season.

The hunters said that the bear season which opened before the deer season spoiled the hunting last fall. Present regulations allow bear trailing with dogs before the deer season.

PEACH "IN BLACK"

TOLEDO, (UP)—The Toledo Industrial Peace Board finished the year 1937 with a balance of \$571 in its budget. Edmund G. Ruffin, director, has reported that the board spent only \$6,679 during the year out of an original appropriation of \$7,250.

Mr. and Mrs. C. C. Herbert were visitors at Sacramento Saturday.

LINDBERGH KIDNAP LAW ATTACKED AS UNCONSTITUTIONAL

Federal Judge In Chicago Sentences Murderer Of Charles S. Ross To Be Executed; Grants 60-Day Stay To Permit Of Appeal Testing Validity Of Statute

CHICAGO (UP)—Federal Judge J. P. Barnes today ordered John Henry Seidlund executed April 19 for the kidnap-slaying of Charles S. Ross, but immediately granted 60 days for perfection of an appeal to higher courts based on the allegation that the Lindbergh kidnap law is unconstitutional.

Seidlund, the youthful lumberjack who chose kidnaping as a quick road to riches, remained sneeringly callous through the proceedings.

He snapped a surly "no" when Judge Barnes asked him if he had any comment to make before sentencing and when the judge ordered the U. S. Marshall to detain him pending electrocution Seidlund uttered a loud "humph!"

His court appointed attorney, Frederic Burham, restated his belief that the Lindbergh statute under which Seidlund was convicted infringes upon purely state functions.

Judge Barnes overruled motion for new trial based on this contention and set sentence.

Burnham then asked and was granted 60 days in which to file a bill of exceptions. Defense counsel, Burnham and Floyd E. Thompson, former chief justice of Illinois, previously have threatened to carry the case to the U. S. Supreme Court for a test of the law's validity.

The Lindbergh law making it a federal offense to kidnap persons "in interstate commerce" was passed after the kidnap-murder of baby Charles Augustus Lindbergh, Jr. in 1932.

PARIS REVIVES PLAN TO CREATE SUN DIAL IN PLACE DE LA CONCORDE

By HERBERT G. KING

United Press Staff Correspondent
PARIS, (UP)—Ever since 1913, Paris municipal authorities have been debating the idea of Camille Flammarion, astronomer for transforming the ancient Egyptian obelisk in the center of the Place de la Concorde into a sundial. The project was well under way in 1913, but was shelved when war broke out in 1914, but has now been advanced again by M. Charles Giraud, general director of city public works department, who has stated that the plan will certainly be executed this year.

This apparently simple project was not so easy to put through, however. In the first place, the permission of the state had to be obtained, since the obelisk is its property, then the City of Paris authorities put their spoke in the wheel, pointing out this was all very well, but that the ground whereon the shadow was to fall belonged to the municipality—but finally gave their consent.

Virgil Smith contributed a very interesting and instructive feature to the program in making an explanation of the manufacture and uses of nitrocellulose. The center had recently seen a motion picture on the subject.

D. Moody was named chairman of the center's committee on highways, which is being formed in response to a request from the state Farm Bureau organization.

Frank Drennan contributed several guitar numbers to the program and the Farm Advisor spoke about sheep and lambs. Several reels of motion pictures were shown. Mr. Lilley being assisted by James Holt as projectionist.

STRIKELESS STRIKE

CAMDEN, Ark., (UP)—County officials here had to wait for fair weather to end the "strikeless strike" of the Ouachita county courthouse clock. When the clock was repaired its strike was ended—it began to strike again, ringing out each hour.

HULL FIRM ON NAZI AUSTRIA

U. S. Does Not Recognize German Occupation, At Least For The Present

WASHINGTON, (UP)—Secretary of state Cordell Hull indicated today the United States will not, for the present at least, recognize the legality of Germany's annexation of Austria.

The indication came after Austrian minister Edgar Prochnik had advised Hull that the affairs of the Austrian legation have been absorbed by the German embassy.

Hull indicated the state department will treat the German embassy as the representative mission of Austria but will go no further toward recognizing the union.

Hull said this government would handle in a practical manner the mechanics of legal and commercial intercourse between Austria and the United States but indicated this did not involve the larger question of the legality of the Union of the two countries.

Hull said the developments in Austria were a matter of serious concern to the government of the United States.

He indicated that recognition of the German embassy's assumption both of the property and the duties of the Austrian legation here was a mere matter of mechanics and did not affect the larger issues.

Ray L. Cotter Guilty Of Disturbing Peace

A sentence of 25 days in jail was suspended for six months pending good behavior by Police Judge E. E. Creed in city court Saturday morning after Ray L. Cotter had been found guilty of disturbing the peace. The suspension of the sentence was ordered upon the recommendation of Chief of Police James P. Morton.

Cotter had been arrested Friday evening at his residence on Bedford Avenue, upon the complaint of Mr. and Mrs. Vern Ringenberg, tenants in an adjoining apartment.

Your reporter was not in court when the hearing against Mr. Cotter was opened, but Chief of Police Morton very courteously explained that the charge arose after Mr. Ringenberg had protested to Mr. Cotter against loud and vulgar noise in his apartment and had been invited by Cotter to "come outside." Mr. Morton said that he had recommended leniency since the wife of the defendant is at Stockton in a delicate condition expecting soon to be confined.

Mr. and Mrs. Glen D. Stevens are spending the week-end with relatives at Merced.

The "ides"—but who cares? Spring officially on the twenty-first. Trees bursting into green likewise lawns. Crocuses, hyacinths, bluebells, blood-root. Birds returning—have you seen a robin? Vivid sunny days, which show up the dirty windows. St. Patrick's Day. House cleaning! But why discuss it? Let's stop right here and begin that delightful household orgy!

Flavor and Seasonings

Condiments are useful to make flat tasting food more acceptable. Especially when one is trying to economize and uses the inexpensive staples frequently, or in the spring when appetites are laded. The same staples may be made different by the use of various spices and seasonings.

There is no set rule about how much or what combination of lemon, cinnamon, bay leaf or vinegar you must use. You may exercise your inventiveness or trust to your taste. Too much of anything is to be avoided, as it induces overeating, tends to dry the blood and is harmful to older people, and cultivates exotic tastes until the eaters are not satisfied with simple foods or do not enjoy natural flavors. Curry is a neglected but valuable spice which can glorify a bland dish. Tomatoes, celery, pineapple, citrus fruits, tarragon, chutney, horseradish, olives, vanilla, chocolate, tabasco, Worcestershire, Chili powder, catsup, paprika, cayenne, garlic, onion, sage, and the whole category of spices and dried herbs—these are the magicians which can transform your common food products into something mysteriously delicious.

Get the tasting habit as you go along and learn to practice intelligent restraint. Over-seasoned food is disgusting and a waste of materials.

Suits

Suits, as usual, are appropriate for spring wear, when one can dispense with the winter coats with a long, slim coat and tightly fitted dress are newer than the conventional tailored suit with hip-length coat.

With suits, the skirt is generally straight and slim, with inverted or hidden plaits. Tweeds and soft wools are the favored material for this season's suits. The surface of the wool may be smooth or nubby.

Blouses worn with suits may be of harmonizing or of contrasting color. For utility, blouses of the sweater or shirt waist type are popular. For dress, there are blouses of the sheerest materials, finely tucked by hand and trimmed with lace. Dark silks or Roman stripes have a tailored look.

Two styles of novelty suits are running strong, the suit with a bolero jacket and the suit, with a long redingote coat. In both cases the under dress is dark and plain, with the bright or gay colors in the overcoat.

Bird Houses

Birds have an economic value in eating harmful insects and weed seeds. They have an ethical worth in cheering our days with their songs and flash of color. They may be induced to take up their abode in our own yards if we offer them a residence, rent free. Encourage your boys to construct one or more of these bird dwellings in their spare hours. This will be good for both boys and birds. Bulletins giving advice and instructions in making bird houses may be obtained free from the government.

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

Written by Denny Shute, Harry Cooper, Jimmy Thomson, Johnny Revolva, Henry Picard and Horton Smith.

ST. AUGUSTINE, Fla. (U)—For going on 10 years now a certain party named McLeMore has been covering golf tournaments and reporting on play, and the play of other professionals.

When we heard that he was entered in the tournament here we asked him if he didn't think it was only fair that we take over his column for a day.

"We want a chance to report on how you play," we said. "You've criticized us pretty severely at times. We all have clippings on your stories where you put the blast on us for failing to chip dead to the pin, hooking a brassie into the rough, missing a fifteen-foot putt, and getting our tee shots off line."

He agreed, and here is our report in detail:

Denny Shute, P. G. A. champion: I would rather play him than find a pocketbook.

He was out of bounds off the first tee, in a trap with his second, still in the trap with his third, and almost out of the trap with his fourth, for all I know he's there yet.

Harry Cooper, low scorer for past three years: I don't know what game it was I saw him playing, but whatever it was it wasn't golf. It is sacrilege on his part to even put on spiked shoes. The memory of the explosion shot he played off the third tee will haunt me for years.

Jimmy Thomson, the game's longest hitter: McLeMore hits a long ball, but he doesn't get any distance. He's the world's longest and most frequent putter, however. He should never be allowed to play golf except in theaters, and only then in theaters which advertise "for adults only." It would be a shame for the youthful golfers of this country ever to have a look at his swing. His swing is a cross between the one Tarzan uses to get to another tree and a mechanical taffy puller. Pardon me if I laugh when I remember what he has said about all of us professional golfers.

Johnny Revolva: I'll play him and use only a rake, a hoe, and "mysterious" Montague. What's more, I'll give him nine up a side. If I were his teacher I'd give him only one piece of advice: Either quit the game or get permission from the U. S. G. A. to play his divots and not the ball. Some of the grass he dug up yesterday hasn't landed yet. Frankly, he's the most impossible specimen I ever saw on a golf course. Yet, he criticizes us.

Henry Picard: I missed Barnum and Bailey's circus when it passed through Hershey last year, but I made up for it today when I watched McLeMore play from under a bush on the sixth hole. His back-swing knocked down a bird nest, his down swing violated all 14 points of the Versailles Treaty, and his follow through—pardon me, McLeMore doesn't have any follow through. His stroke is very reminding of Doctor Dittmars subduing a hooded cobra.

Horton Smith: If there is any Alcatraz or Devil's Island for golfers, McLeMore should be given a life sentence, and with no time off if he should accidentally behave. I saw him play three shots today and he broke every golfing law that ever existed. I don't

BUILDING COSTS TREND DOWNWARD, SAYS HOME LOAN BOARD

WASHINGTON, D. C.—Building costs in California, as well as throughout the country, have turned definitely downward, confirming the trend noted in scattered sections since the early fall of 1937, the Federal Home Loan Bank Board reported today.

The board's findings, published in the current issue of the Federal Home Loan Bank Review, stated: "It is particularly significant that February building costs in four cities were below costs in these cities for February, 1937, and in one city, Little Rock, Arkansas, were below costs for February, 1936."

The small-house building index in the Review showed that the first signs of a halt in rising building costs appeared in July, 1937, confirmed by a leveling off of costs reported from two other groups of cities in August and September. Between October and January, 1938, fluctuations were more violent than usual, with the general trend, however, toward reduction in costs.

Reduction in the cost of materials generally was ascribed to lower prices of materials, although in January labor rates were lower or unchanged in 14 out of 18 cities surveyed.

Asparagus plantings of the delta region have been increased 400 acres this season.

Believe that what he says about my play in the future will bother me very much.

Lawson Little (McLeMore's partner): Boys, you just saw him for a few holes. I played with him for an entire round. Death, bring on thy sting.

Owing to the cold and rainy weather the past month or more the blooming of the fruit trees has been put back. A few plum, peach, apricot and cherry trees, the latter being scarce around here, are beginning to sprout their buds. The pear trees are somewhat behind. Any amount of buds are on the trees and a good crop for the coming summer is looked for by all the growers provided Jack Frost doesn't come later and nip them.

Fred Veerkamp, one of the Garder Valley stockmen, was in our town on Tuesday last, on his way over to Missouri Flat to visit his son, Auburn, to look after his property interests and see how his cattle are coming along. LATROBE

A profusion of violets and other spring blossoms was the predominant note at a luncheon party Monday when Mrs. R. S. Swift was hostess to sixteen members of the Monday Fine Arts Club of Sacramento, at the Swift ranch, near here.

The luncheon, served at card tables with organdie cloths and centerpieces of violets was a delight to all present. After lunch, the president, Mrs. A. E. Schwing informed the club of a forthcoming Art Appreciation event at Sacramento and presided at a brief business meeting. The remainder of the afternoon was devoted to two most interesting art reports. Mrs. Reginald West gave a brief but expressive report on the works of Palma Vecchio and Sebastian del Piombo. This was followed by a most interesting and inspiring description by Mrs. V. R. Burton of the work of Titoretto and his teacher, Titian. Both reports were supplemented by many colored reproductions of the work of the artists mentioned. These were borrowed from the state library.

FRENCH TO MARK BIRTH
OF LEADER OF FIRST
CRUSADE

AURILLAC, France (AP)—Preparations are being made here to celebrate the birth of the first French Pope, Sylvester II, famous as the leader of the first Crusade for possession of the Holy Land.

Born in 938, just 1,000 years ago, Gerbert, Bishop of Rheims, was a savant and diplomat whose prestige and influence were so great that he was known as "the maker and unmaker of kings." He also was a poet and writer.

Born in the little hamlet of Belliac near here, Pope Sylvester was educated in the Benedictine convent of Aurillac. In Sylvester's day Aurillac was an important European city and it was here that the Pope conceived the idea of the Crusades which were to change the fate of Europe and the world.

Today, Aurillac is only a small department county seat, lying in the Dordogne valley.

Deciduous fruit trees in Placer county escaped serious damage from the high winds which struck there recently.

LUTHERAN CHURCH

Lent will be observed in the Lutheran service to be held next Sunday afternoon at 3 o'clock in Odd Fellows' Hall on Main St., Placerville. Rev. Carl Fickenscher of Sacramento will conduct the service while Oscar Mueller, Sacramento organist and choir director, will be at the piano. The sermon will be based on the Story of Christ's Passion as recorded in the Gospel according to St. Matthew. Lutheran Radio Hour, Sundays 1:30 p. m., KGDM or KFRC.

In announcing this service today the Rev. Fickenscher added the following observations concerning the meaning of Lent as observed in the Lutheran Church. "The importance of Lent for the individual and for our nation cannot be over-estimated. But much depends on the manner of its observance. An outward keeping of the season will do little good. Lent must be made to offer that which can give enduring peace to the soul and comfort and strengthen the inner man. It must offer what can change a man's heart and fix his thoughts on the redeeming love of God for a sin-sick world, as manifested on Calvary.

"The Gospel of the sinner's perfect reconciliation with His Creator through the supreme sacrifice of His only begotten Son is the only means to change the heart, provide lasting assurance and hope, cast out selfishness, and make for humble service. The Lutheran Church, therefore, devotes the Lenten season to an intensive study and personal application of the tragedy of Calvary, and urges, 'Behold your God!'

3 Month Term For W. Davey

youth and lack of experience and his previous good record.

Reckers said that Davey had been frightened by the probable consequences at the time of his arrest and, taking the advice of persons ill advised, had not been disposed to reveal fully his participation in the Black Oak highgrading. However, after his attorneys had talked with him, he had made a more complete statement to officials, resulting in broadening their investigation.

District Attorney Henry S. Lyon said it is true that Davey's statement of his participation in the case had given authorities considerable information, a part of which led to the recovery this week of \$1940 in cash and approximately \$4000 in highgraded ore. Some of the information also will be the basis for further charges against others in connection with the investigation, he indicated.

Defense counsel informed the court that of the \$5817.50 taken, Davey has returned \$3,510 and whether probation is granted or not would intend to make restitution of the balance of \$2,307.50.

Judge Thompson inquired into the defendant's resources which were enumerated as including 180 pairs of roller skates, an investment of about \$400 in fixtures at Brewsterville Inn, and a deposit of some \$300 made with the state Board of Equalization in the defendant's application for a license to sell liquor in connection with his contemplated operation of Brewsterville Inn.

Leg Hurt 6 Times, Man Seeks Compensation

LANCASTER, Pa. (UP)—Woe has been the lot of Carl Neuhausser's right leg since he was 6. He's 40 now and for the first time is trying to collect compensation for his injuries.

Neuhausser's right ankle was fractured in a rolling machine when he was 6. At 18 an army mule fell on his right leg; a stomach operation several years later left his right leg temporarily useless; five years ago he fractured his right ankle and last year his right shin was injured and an abscess formed.

This year he slipped on a grease spot and again injured his right leg. He's trying to collect workmen's compensation from his employer.

ASHEVILLE, N. C. (UP)—Upward of 13,000 tourists from 44 states visited the Smoky Mountains National Park during February.

sell liquor in connection with his contemplated operation of Brewsterville Inn.

The skates might be sold, counsel suggested, as well as the fixtures at Brewsterville Inn, and application had been made for revocation of the application for a license to sell liquor, and for return of the fee paid.

Judge Thompson informed Davey that the probation statute is a "law of mercy," by which within the discretion of the court, leniency may be extended to young men whose record indicates they may re-establish themselves in society following a serious mistake.

The terms of the probation mean just what they say, the court warned, and violation of them offers no alternative except that the law will take its course. Sentence was passed as follows, upon the defendant's acceptance of the terms of probation:

Full restitution of the amount owing and unpaid, beginning with an initial payment within the first year amounting to \$750, and at the rate of at least \$25 per month thereafter; confinement within the county jail for a period of three months; and the usual admonition in the case of probation, to abstain from intoxicants, keep the company of good citizens and stay out of trouble.

Davey was in court awaiting sentence when Walter Neilsen came before the court as a probation violator, as is reported elsewhere in this paper.

CALL A "SPUD" A "SPUD" IS ADVICE GIVEN TO HOTEL RESTAURANTS

CHICAGO, (UP)—Shall a baked potato remain just a baked potato or become a pomme de terre en robe en chambre? For breakfast this morning will it be fried eggs or des oeufs sur le plat? For dinner, loin of beef with string beans or un filet de boeuf au haricots vert? And for cocktails, do you prefer rodering champagne or veuve clicquot dry, 1928?

That's what the Greater Chicago Hotel Association wanted to know. So it asked hotel and restaurant men throughout the Middle West whether they and their patrons prefer menus in English or French.

The verdict was unanimously in favor of the English. The replies indicated that the restaurant patrol may have become accustomed to hors d'oeuvres and crepe suzettes, but calling a baked potato an "apple of the earth with its skin on" is too much.
